PROFESSIONAL SUMMARY

Computer Science student at Yaba College of Technology developing practical skills in web development and digital product building. Working with modern web technologies to develop responsive interfaces and explore full-stack application development, database integration, authentication and payment processing. Building personal projects to strengthen programming fundamentals, problem-solving and software development practices. Seeking an entry-level software development opportunity or internship where I can contribute, learn from experienced developers and grow as an engineer.

TECHNICAL SKILLS

Frontend Development

- HTML and CSS
- JavaScript and TypeScript
- React
- Next.js
- Tailwind CSS

Backend & Database

- Next.js API routes and server-side development
- PostgreSQL
- Prisma ORM
- User authentication concepts
- REST API integration

Development Tools

- Git and GitHub
- GitHub Codespaces
- Visual Studio Code, where available
- Vercel deployment

Integrations

- Paystack integration (project work)
- Third-party API integration concepts

TECHNICAL PROJECTS

Nuvistine Global — E-commerce Web Application
Personal project | In development
Repository: https://github.com/Bella2021-crypto/nuvistine-global

- Developing an e-commerce application for fashion, beauty and lifestyle products.
- Working with Next.js, TypeScript and Tailwind CSS to build the user interface.
- Integrating PostgreSQL and Prisma for database operations.
- Implementing customer registration, login and account functionality.
- Developing shopping cart and order-related functionality.
- Exploring payment processing through Paystack.
- Working with GitHub and Vercel deployment workflows.

Gemora — Digital Product Project
Personal project

- Developing a digital product project to practise application design and software development.
- Document the specific features, technologies and functionality implemented in the project before submitting this CV.

Student Marketplace — Digital Product Concept
Personal project

- Exploring a marketplace concept intended to connect student buyers and sellers.
- Document implemented features, technical decisions and future development plans as the project progresses.

WORK EXPERIENCE

Administrative Assistant | D.E.R Limited, Lagos| February 2025 - August 2026

- Supported administrative workflows and maintained organised business documentation.
- Prepared reports, tracking sheets and other operational documents.
- Coordinated schedules and communicated with internal departments.
- Followed up on tasks and supported timely completion of assigned activities.

Logistics & Personal Assistant | Virtue Cargo, Lagos| March 2022 - December 2023

- Maintained shipment documentation and order-tracking records for international client operations.
- Coordinated vendor dispatch schedules and monitored delivery progress.
- Communicated logistics updates and helped address delivery delays.
- Maintained digital client logs and inventory records.

Sales Attendant/Customer Support | Bluefish Foods and Services, Lagos| January 2024 - January 2025

- Assisted customers and supported routine on-site operations.
- Maintained stock records and documented transactions.
- Helped keep daily business activities organised.

EDUCATION & CERTIFICATIONS

- National Diploma (ND) in Computer Science — Yaba College of Technology, Lagos (In Progress)
- Senior Secondary School Certificate (S.S.C.E) — Lagos, Nigeria
- HubSpot Sales Hub Software — HubSpot Academy, 2026
- English: Advanced / Proficient (CEFR C1/C2 Level - EF SET Certified)
- Computer Applications: MS Office Suite (Word, Excel, PowerPoint)

PROFESSIONAL STRENGTHS

- Problem-solving and willingness to learn
- Documentation and attention to detail
- Communication and teamwork
- Organisation and task management
- Adaptability to digital tools and workflows

CAREER OBJECTIVE

To begin a professional career in software development, apply my developing technical skills to real-world problems and contribute to building useful, reliable and maintainable digital products.
